ZOE BARKER

ARTISAN WEDDING DESIGN

Learn to Design
COURSE

Do you wish you had skills in design software to realise your ideas?

Learn to design using Photoshop, Illustrator or InDesign.

This course sets you a **design project** to complete ensuring you learn the skills required to use design software yourself.   Build your knowledge of design practice, print terms, industry standards and file formats. Your new skills will be transferrable enabling you to create more exciting ideas with confidence in the future. Full email support is offered for 6 weeks.

Design PROJECT

Using the resources provided you will create the print ready artwork for a

Logo, Business Card, Postcard and Moodboard

What IS INCLUDED?

- Design & Print Terms
- Software Introduction
- Basic Software Tools
- Tailored Software Tools
- Design & Layout Skills
- Final Product Artwork
- Email Support

How WILL YOU LEARN?

Choose from Photoshop, Illustrator or InDesign. You will need access to your chosen software. Delivered as one unit and split in to easy to follow tutorials, step by step you will build your skills in design and print by designing print ready artwork using the resources provided.
